

Get remote ready with ClassDojo!

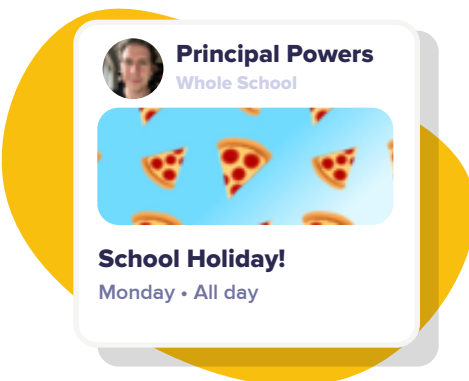

Engage students with Portfolios

- Get creative with send-home activities using creation tools **photos, videos, files, journaling, and drawing!**
- **Easily assign activities** to individual students, groups, or the entire class. Provide “just-right” practice for every student, from math groups to meeting IEP’s!
- **Create custom worksheets using any .png, .jpg, or .pdf!** Assign it, and students can fill out text, draw, and add stickers.

Communicate with classroom parents (without ever giving out your phone number!)

- **ClassDojo works with any home device or computer!** You can reach parents regardless of the devices they have at home.
- **Automatic translations into 40+ languages** means language is never a barrier.
- **Read receipts, office hours, and custom notifications** let you set the boundaries.

Bring the school community together with Class & School Story

- **Class Story is a private feed where you share to your class!** Share photos of field trips, video lessons, and files securely with just your students and their families!
- **School Story allows school leaders and teachers to share to the whole school!** Share important announcements, holidays, and see read receipts to see who has seen the announcements!
