ClassDojo Parent Account Overview

Keep parents in the loop

Easily keep all families engaged with ClassDojo! Millions of families world-wide use ClassDojo to have a window into their child’s day at school. Parents with ClassDojo accounts can see Class Story and School Story (all of your classroom and school photos and announcements), feedback, and their child’s individual Portfolio of Activities.

Any device, any language

- Parents can use any device, iOS or Android, as well as their computer to connect!
- They can read all Class Story posts and direct messages in their preferred language instantly, with automatic text translations in 35+ languages.
How to easily connect parents as a teacher

Teachers can **invite parents to connect to their class** by email, text, sending home unique parent codes, or sharing their class link!

1. **On web** select **Invite parents** from the top of the class page.
2. **On mobile** select the top right **menu icon** and then **Connect parents**.
There are four invite options:

1. Enter the family member’s **email address**
2. Enter the family member’s **phone number (US only)**
3. Select **Individual Invites** which includes a “P” code that parents can enter into their account to connect to their child’s class
4. Select **Class Link**, which allows you to share a single link with all parents that invites them to connect to the class and their child. Parents will enter their child’s name and the teacher will approve the parent’s request or connect them to a different student.

Parents will be prompted to create a parent account with their email address if they haven’t registered already. If they have an existing parent account, they can use that account to connect to the class.

**Connect parents only once!**

For students who show a parent connection in your Directory, you’re all set! Those parent connections will automatically follow their student to whatever classes they are added to, when the teacher adds the student from the Directory.

Parents (and students) can be **connected to as many students/classes** as need be, even if students are at different schools. Students can also have **multiple parents connected** to their student account.

**Disconnecting a parent** from one class disconnects the parent from their student and all classes their child is in.
Add parent connections through your Directory

Verified teachers and staff can connect parents to students in the Directory:

- Search and click on a student
- Select Connect a parent
- Enter the parent/guardian's email address
- Repeat for multiple parents/guardians by selecting Connect another parent

Parent Account FAQ

What if a parent was already connected to their child last year?
Great! This means that you’re all set ;) Simply add the student from the Directory and the parent connection will follow.

How far back in time can parents see feedback points?
Parents can see the last two weeks of their child’s feedback points. Parents also have the option of subscribing to ClassDojo Plus which allows them to see their child(ren)’s all time point history. They can set goals and create customized at home skills which are separate from their school points. Home points and skills and are not visible to their classroom teacher(s).

When do parents get notified by ClassDojo?
ClassDojo notifies parents whenever they receive a new private message, or when a new post is added to the Class Story, School Story, or their child’s Portfolio. If their child(ren) received points during the week, but the parent hasn’t logged in recently, they will get a reminder to login and view their child(ren)’s feedback at the end of the week.
